St. Vincent’s Medical Center PGY1 Community Pharmacy Residency Program prepares its graduates to assume direct patient care positions in the community and ambulatory care setting or pursue second year post-graduate training in a focused area of practice.

St. Vincent’s one-year residency program utilizes a systems approach to facilitate the development of new pharmacists into competent practitioners able to provide patient-centered pharmaceutical care. Our program fosters the resident’s ability to work in multidisciplinary teams, develop strong verbal and written communication skills and become a lifelong, self-directed learner. The foundation of the program is built upon St. Vincent’s Medical Center core values of service, reverence, integrity, wisdom, creativity and dedication.

Rotation Opportunities

Teaching and learning certification
Leadership and management
Direct patient care within:
- Family Health Center
- Primary care practices
- Dispensary of Hope
- Medical Center
- Staffing in Outpatient Pharmacy
