You will need to provide Employee Occupational Health Center documentation of all your vaccinations including measles, mumps, rubella, chickenpox, tetanus and tuberculin skin testing. Please take the accompanying form, "Proof of Immunization/Immunity", to your physician or health care provider for completion. You will need to have a **2-step PPD tuberculin skin test** performed. This involves a small injection of fluid into your forearm. It is imperative to return 48 to 72 hours later, for the skin test to be read. After that, the test is only required once a year. If unable to complete immunization documentation, blood work can be done at Employee Occupational Health.

Upon completion, submit the medical form with your application, and all required forms to Volunteer Services.

I authorize Occupational Health to place a PPD tuberculin test and a flu vaccine (seasonally or annually.)

drug screening consent for volunteer applicants

INFORMATION CONCERNING THE DRUG SCREENING PROCESS

St. Vincent's Medical Center has a firm commitment to providing a safe work environment. The health and safety of our patients, employees and volunteers requires that stringent safety standards be met. Therefore, it is our intention to maintain a drug and alcohol-free environment.

Drug screening is a very important part of a volunteer's initial assessment. Anyone refusing to be tested, or anyone submitting a urine specimen that establishes the use of an illegal substance or the use of a prescribed drug without a valid prescription, will be denied a volunteering opportunity at the Medical Center.

During the drug screening process, you will be asked to divulge any medications prescribed for you by a physician. Any falsification or omission of this information will also result in your volunteer experience being denied.

I understand that the results of this test will not be released to anyone except the staff of Employee Occupational Health Center.

I have read and understand the above notice as it relates to my application as a volunteer with St. Vincent's Medical Center.
